

APPENDIX B TO PART 210—CATEGORIES  
OF FOODS OF MINIMAL NUTRITIONAL  
VALUE

(a) *Foods of minimal nutritional value*—Foods of minimal nutritional value are:

(1) *Soda Water*—A class of beverages made by absorbing carbon dioxide in potable water. The amount of carbon dioxide used is not less than that which will be absorbed by the beverage at a pressure of one atmosphere and at a temperature of 60° F. It either contains no alcohol or only such alcohol, not in excess of 0.5 percent by weight of the finished beverage, as is contributed by the flavoring ingredient used. No product shall be excluded from this definition because it contains artificial sweeteners or discrete nutrients added to the food such as vitamins, minerals and protein.

(2) *Water Ices*—As defined by 21 CFR 135.160 Food and Drug Administration Regulations except that water ices which contain fruit or fruit juices are not included in this definition.

(3) *Chewing Gum*—Flavored products from natural or synthetic gums and other ingredients which form an insoluble mass for chewing.

(4) *Certain Candies*—Processed foods made predominantly from sweeteners or artificial sweeteners with a variety of minor ingredients which characterize the following types:

(i) *Hard Candy*—A product made predominantly from sugar (sucrose) and corn syrup which may be flavored and colored, is characterized by a hard, brittle texture, and includes such items as sour balls, fruit balls, candy sticks, lollipops, starlight mints, after dinner mints, sugar wafers, rock candy, cinnamon candies, breath mints, jaw breakers and cough drops.

(ii) *Jellies and Gums*—A mixture of carbohydrates which are combined to form a stable gelatinous system of jelly-like character, and are generally flavored and colored, and include gum drops, jelly beans, jellied and fruit-flavored slices.

(iii) *Marshmallow Candies*—An aerated confection composed as sugar, corn syrup, invert sugar, 20 percent water and gelatin or egg white to which flavors and colors may be added.

(iv) *Fondant*—A product consisting of microscopic-sized sugar crystals which are separated by thin film of sugar and/or invert sugar in solution such as candy corn, soft mints.

(v) *Licorice*—A product made predominantly from sugar and corn syrup which is flavored with an extract made from the licorice root.

(vi) *Spun Candy*—A product that is made from sugar that has been boiled at high temperature and spun at a high speed in a special machine.

(vii) *Candy Coated Popcorn*—Popcorn which is coated with a mixture made predominantly from sugar and corn syrup.

(b) *Petitioning Procedures*—Reconsideration of the list of foods of minimal nutritional value identified in paragraph (a) of this section may be pursued as follows:

(1) Any person may submit a petition to FNS requesting that an individual food be exempted from a category of foods of minimal nutritional value listed in paragraph (a). In the case of artificially sweetened foods, the petition must include a statement of the percent of Reference Daily Intake (RDI) for the eight nutrients listed in §210.11(a)(2) "Foods of minimal nutritional value," that the food provides per serving and the petitioner's source of this information. In the case of all other foods, the petition must include a statement of the percent of RDI for the eight nutrients listed in §210.11(a)(2) "Foods of minimal nutritional value," that the food provides per serving and per 100 calories and the petitioner's source of this information. The Department will determine whether or not the individual food is a food of minimal nutritional value as defined in §210.11(a)(2) and will inform the petitioner in writing of such determination, and the public by notice in the FEDERAL REGISTER as indicated below under paragraph (b)(3) of this section. In determining whether an individual food is a food of minimal nutritional value, discrete nutrients added to the food will not be taken into account.

(2) Any person may submit a petition to FNS requesting that foods in a particular category of foods be classified as foods of minimal nutritional value as defined in §210.11(a)(2). The petition must identify and define the food category in easily understood language, list examples of the food contained in the category and include a list of ingredients which the foods in that category usually contain. If, upon review of the petition, the Department determines that the foods in that category should not be classified as foods of minimal nutritional value, the petitioners will be so notified in writing. If, upon review of the petition, the Department determines that there is a substantial likelihood that the foods in that category should be classified as foods of minimal nutritional value as defined in §210.11(a)(2), the Department shall at that time inform the petitioner. In addition, the Department shall publish a proposed rule restricting the sale of foods in that category, setting forth the reasons for this action, and soliciting public comments. On the basis of comments received within 60 days of publication of the proposed rule and other available information, the Department will determine whether the nutrient composition of the foods indicates that the category should be classified as a category of foods of minimal nutritional value. The petitioner shall be notified in

## Food and Nutrition Service, USDA

## Pt. 210, App. C

writing and the public shall be notified of the Department's final determination upon publication in the FEDERAL REGISTER as indicated under paragraph (b)(3) of this section.

(3) By May 1 and November 1 of each year, the Department will amend appendix B to exclude those individual foods identified under paragraph (b)(1) of this section, and to include those categories of foods identified under paragraph (b)(2) of this section, *provided*, that there are necessary changes. The schedule for amending appendix B is as follows:

Actions for publication	Publication	
	May	November
Deadline for receipt of petitions by USDA.	Nov. 15 .....	May 15.
USDA to notify petitioners of results of Departmental review and publish proposed rule (if applicable).	Feb. 1 .....	Aug. 1.
60 Day comment period .....	Feb. 1 through Apr. 1.	Aug. 1 through Oct. 1.
Public notice of amendment of appendix B by.	May 1 .....	Nov. 1.

(4) Written petitions should be sent to the Chief, Technical Assistance Branch, Nutrition and Technical Services Division, FNS, USDA, Alexandria, Virginia 22302, on or before November 15 or May 15 of each year. Petitions must include all information specified in paragraph (b) of this appendix and §220.12(b) (1) or (2) as appropriate.

[53 FR 29147, Aug. 2, 1988, as amended at 54 FR 18465, May 1, 1989; 59 FR 23614, May 6, 1994]

### APPENDIX C TO PART 210—CHILD NUTRITION LABELING PROGRAM

1. The Child Nutrition (CN) Labeling Program is a voluntary technical assistance program administered by the Food and Nutrition Service in conjunction with the Food Safety and Inspection Service (FSIS), and Agricultural Marketing Service (AMS) of the U.S. Department of Agriculture, and National Marine Fisheries Service of the U.S. Department of Commerce (USDC) for the Child Nutrition Programs. This program essentially involves the review of a manufacturer's recipe or product formulation to determine the contribution a serving of a commercially prepared product makes toward meal pattern requirements and a review of the CN label statement to ensure its accuracy. CN labeled products must be produced in accordance with all requirements set forth in this rule.

2. Products eligible for CN labels are as follows:

(a) Commercially prepared food products that contribute significantly to the meat/meat alternate component of meal pattern requirements of 7 CFR 210.10 or 210.10a, whichever is applicable, 225.20, and 226.20 and are served in the main dish.

(b) Juice drinks and juice drink products that contain a minimum of 50 percent full-strength juice by volume.

3. For the purpose of this appendix the following definitions apply:

(a) "CN label" is a food product label that contains a CN label statement and CN logo as defined in paragraph 3 (b) and (c) below.

(b) The "CN logo" (as shown below) is a distinct border which is used around the edges of a "CN label statement" as defined in paragraph 3(c).

(c) The "CN label statement" includes the following:

(1) The product identification number (assigned by FNS),

(2) The statement of the product's contribution toward meal pattern requirements of 7 CFR 210.10 or 210.10a, whichever is applicable, §220.8 or §220.8a, whichever is applica-

ble, §§225.20, and 226.20. The statement shall identify the contribution of a specific portion of a meat/meat alternate product toward the meat/meat alternate, bread/bread alternate, and/or vegetable/fruit component of the meal pattern requirements. For juice
